This is an example of proper formatting of a paper contributed to the OWTNM 2013 workshop [1]. Precede the paper by a brief abstract that fits within three lines. You might wish to replace conventional titles like “Summary”, “Introduction”, or “Results” by headings that relate to your actual contents.

OWTNM proceedings

To ensure a reasonably uniform appearance of the papers in the proceedings volume, we ask all authors to follow these formatting instructions. Be aware that your paper will appear online (hyperlinks can be included) as well as in the printed booklet (gray-scale print).

Formatting guidelines

The expected and maximum length of the contribution is 1 page. Prepare the document for A4 paper size, with margins of 2 cm (sides), and of 2.5 cm and 3.2 cm (top and bottom). Application of a single font of the type Times New Roman throughout the whole paper is strongly recommended. The title should be written in 14 pt bold letters. The authors’ name(s), affiliation(s) and the e-mail address of the corresponding author should be centered and placed 12 pts below the title. The recommended font size is 12 pt (normal) for the authors’ name(s), and 11 pt italics for the affiliation(s) and e-mail(s). The abstract (11 pt font size) has to be placed 12 pts below the affiliations and e-mail address(es). The text of the contribution should then follow singlespaced, of 12 pt size. References should be formatted preferably as shown below [1]. Displayed equations should be centered:

$$E(x, z) = \Psi(x) \exp(-i\beta z).$$

Number figures, tables, and equations only when actually required. Omit page numbers. Please note that the layout will be scaled down to B5 format, so be wary of fine detail within figures, text and tables. Please also prepare your figures such that nothing is obscured when printed in gray-scale.

Figures and tables should be provided with captions.

Submission

Submit your paper in .pdf-format by e-mail to owtnm13@ewi.utwente.nl, before **January 31, 2013**. Please indicate clearly in your message whether you prefer an oral or a poster presentation.
